

4Q15 Quarterly Supplement

January 15, 2016

These results do not reflect the impact of the agreement in principle Wells Fargo & Company reached with the United States government on February 1, 2016 to pay \$1.2 billion to resolve certain pending and potential claims relating to our Federal Housing Administration lending activities. In connection with the resolution of these matters, Wells Fargo & Company, subsequent to the announcement of its 2015 financial results on January 15, 2016, has provided for an additional legal accrual which increased operating losses within noninterest expense by \$200 million. As a result, the Company reduced its net income for the year ended December 31, 2015, by \$134 million, or \$0.03 per common share, to \$22.9 billion, or \$4.12 per common share. See our Form 8-K filed on February 3, 2016 for more information.

Wells Fargo defines its operating segments by product type and customer segment. Effective fourth quarter 2015, we realigned our business banking and merchant payment services businesses from Community Banking to Wholesale Banking. Results for these operating segments were revised for prior periods to reflect the impact of this realignment.

4Q15 Highlights

Wells Fargo Net Income (\$ in millions, except EPS)

— Diluted earnings per common share

- Earnings of \$5.7 billion
- Diluted earnings per common share of \$1.03
- Revenue up 1% year-over-year (YoY) and down 1% linked quarter (LQ)
 - Net interest income up 4% YoY and 1% LQ
 - Noninterest income down 3% YoY and 4% LQ
- Strong loan and deposit growth
 - Average loans up 7% YoY and 2% LQ
 - Average deposits up 6% YoY and 1% LQ
- Credit quality remained solid with net charge-offs of 36 bps of average loans
- Pre-tax pre-provision profit (PTPP) ⁽¹⁾ up 4% YoY and down 3% LQ
- Strong capital position
 - Common Equity Tier 1 ratio (fully phased-in) of 10.7% at 12/31/15 ⁽²⁾
 - Returned \$3.2 billion to shareholders through common stock dividends and net share repurchases

(1) Pre-tax pre-provision profit (PTPP) is total revenue less noninterest expense. Management believes PTPP is a useful financial measure because it enables investors and others to assess the Company's ability to generate capital to cover credit losses through a credit cycle.

(2) 4Q15 capital ratio is a preliminary estimate. Fully phased-in capital ratios are calculated assuming the full phase-in of the Basel III capital rules. See page 26 for additional information regarding the Common Equity Tier 1 capital ratio.

Capital

Common Equity Tier 1 Ratio (Fully Phased-In) ⁽¹⁾

Capital Position

- Capital remained strong
- Common Equity Tier 1 ratio well above the regulatory minimum and buffers and our internal buffer
 - Common Equity Tier 1 ratio (fully phased-in) of 10.7% at 12/31/15 ⁽¹⁾

Capital Return

- Period-end common shares outstanding down 16.3 million LQ
 - Purchased 27.0 million common shares
 - Issued 10.7 million common shares
- Entered into a \$500 million forward repurchase transaction which settled in early 1Q16 for 9.2 million shares
- Our strong capital levels allowed us to continue to return capital to shareholders
 - Returned \$3.2 billion to shareholders in 4Q15
 - Net payout ratio ⁽²⁾ of 59% in 4Q15

⁽¹⁾ 4Q15 capital ratio is a preliminary estimate. Fully phased-in capital ratios are calculated assuming the full phase-in of the Basel III capital rules. See page 26 for additional information regarding capital ratios.

⁽²⁾ Net payout ratio means the ratio of (i) common stock dividends and share repurchases less issuances and stock compensation-related items, divided by (ii) net income applicable to common stock.

Summary

2015

- Strong earnings of \$23.0 billion
 - Diluted earnings per share (EPS) of \$4.15, up 1% from 2014
- Returned \$12.6 billion to shareholders through common stock dividends and net share repurchases
 - Net payout ratio ⁽¹⁾ of 58%
- Pre-tax pre-provision profit ⁽²⁾ of \$36.3 billion, up 3%

4Q15

- Solid earnings of \$5.7 billion
 - Diluted EPS of \$1.03, up 1% from 4Q14
- Solid returns
 - ROA = 1.27%
 - ROE = 12.23%
- Strong loan and deposit growth
 - Period-end loans up \$54.0 billion, or 6%, YoY with core loans up \$62.8 billion, or 8%, on broad-based growth
 - Period-end deposits up \$55.0 billion, or 5%, YoY
- Diversified and high quality loan portfolio
 - Credit quality remained strong with net charge-offs of 0.36% (annualized), up 2 bps from 0.34% a year ago
 - Maintained our risk and pricing discipline
- Strong capital levels while returning \$3.2 billion to shareholders through common stock dividends and net share repurchases in 4Q15

(1) Net payout ratio means the ratio of (i) common stock dividends and share repurchases less issuances and stock compensation-related items, divided by (ii) net income applicable to common stock.

(2) Pre-tax pre-provision profit (PTPP) is total revenue less noninterest expense. Management believes PTPP is a useful financial measure because it enables investors and others to assess the Company's ability to generate capital to cover credit losses through a credit cycle.

(1) Basel III capital rules, adopted by the Federal Reserve Board on July 2, 2013, revised the definition of capital, increased minimum capital ratios, and introduced a minimum Common Equity Tier 1 (CET1) ratio. These rules established a new comprehensive capital framework for U.S. banking organizations that implements the Basel III capital framework and certain provisions of the Dodd-Frank Act. The rules are being phased in through the end of 2021. Fully phased-in capital amounts, ratios and RWAs are calculated assuming the full phase-in of the Basel III capital rules. Fully phased-in regulatory capital amounts, ratios and RWAs are considered non-GAAP financial measures that are used by management, bank regulatory agencies, investors and analysts to assess and monitor the Company's capital position. We have included this non-GAAP financial information, and the corresponding reconciliation to total equity, because of current interest in such information on the part of market participants.

(2) Goodwill and other intangible assets are net of any associated deferred tax liabilities.

(3) The final Basel III capital rules provide for two capital frameworks: the Standardized Approach, which replaced Basel I, and the Advanced Approach applicable to certain institutions. Under the final rules, we are subject to the lower of our CET1 ratio calculated under the Standardized Approach and under the Advanced Approach in the assessment of our capital adequacy. Because the final determination of our CET1 ratio and which approach will produce the lower CET1 ratio as of December 31, 2015, is subject to detailed analysis of considerable data, our CET1 ratio at that date has been estimated using the Basel III definition of capital under the Basel III Standardized Approach RWAs. The capital ratio for September 30, 2015, and June 30, 2015, was calculated under the Basel III Standardized Approach RWAs, and the capital ratio for March 31, 2015, and December 31, 2014, was calculated under the Basel III Advanced Approach RWAs.

The Company's December 31, 2015, RWAs and capital ratio are preliminary estimates.

Forward-looking statements and additional information

Forward-looking statements:

This document contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. In addition, we may make forward-looking statements in our other documents filed or furnished with the SEC, and our management may make forward-looking statements orally to analysts, investors, representatives of the media and others. Forward-looking statements can be identified by words such as "anticipates," "intends," "plans," "seeks," "believes," "estimates," "expects," "target," "projects," "outlook," "forecast," "will," "may," "could," "should," "can" and similar references to future periods. In particular, forward-looking statements include, but are not limited to, statements we make about: (i) the future operating or financial performance of the Company, including our outlook for future growth; (ii) our noninterest expense and efficiency ratio; (iii) future credit quality and performance, including our expectations regarding future loan losses and allowance levels; (iv) the appropriateness of the allowance for credit losses; (v) our expectations regarding net interest income and net interest margin; (vi) loan growth or the reduction or mitigation of risk in our loan portfolios; (vii) future capital levels or targets and our estimated Common Equity Tier 1 ratio under Basel III capital standards; (viii) the performance of our mortgage business and any related exposures; (ix) the expected outcome and impact of legal, regulatory and legislative developments, as well as our expectations regarding compliance therewith; (x) future common stock dividends, common share repurchases and other uses of capital; (xi) our targeted range for return on assets and return on equity; (xii) the outcome of contingencies, such as legal proceedings; and (xiii) the Company's plans, objectives and strategies. Forward-looking statements are not based on historical facts but instead represent our current expectations and assumptions regarding our business, the economy and other future conditions. Investors are urged to not unduly rely on forward-looking statements as actual results could differ materially from expectations. Forward-looking statements speak only as of the date made, and we do not undertake to update them to reflect changes or events that occur after that date. For more information about factors that could cause actual results to differ materially from expectations, refer to the "Forward-Looking Statements" discussion in Wells Fargo's press release announcing our fourth quarter 2015 results and in our most recent Quarterly Report on Form 10-Q, as well as to Wells Fargo's other reports filed with the Securities and Exchange Commission, including the discussion under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014.

Purchased credit-impaired loan portfolio:

Loans that were acquired from Wachovia that were considered credit impaired were written down at acquisition date in purchase accounting to an amount estimated to be collectible and the related allowance for loan losses was not carried over to Wells Fargo's allowance. In addition, such purchased credit-impaired loans are not classified as nonaccrual or nonperforming, and are not included in loans that were contractually 90+ days past due and still accruing. Any losses on such loans are charged against the nonaccretable difference established in purchase accounting and are not reported as charge-offs (until such difference is fully utilized). As a result of accounting for purchased loans with evidence of credit deterioration, certain ratios of the combined company are not comparable to a portfolio that does not include purchased credit-impaired loans.

In certain cases, the purchased credit-impaired loans may affect portfolio credit ratios and trends. Management believes that the presentation of information adjusted to exclude the purchased credit-impaired loans provides useful disclosure regarding the credit quality of the non-impaired loan portfolio. Accordingly, certain of the loan balances and credit ratios in this document have been adjusted to exclude the purchased credit-impaired loans. References in this document to impaired loans mean the purchased credit-impaired loans. Please see page 31 of the press release announcing our 4Q15 results for additional information regarding the purchased credit-impaired loans.
